

Meet Candidates for Governor and Speak Out for Georgia's Coast

Directions: We've compiled a list of talking points for you and questions to ask the Gubernatorial candidates. Of course, you're free to ask any other questions, and we would love to hear how it went.

Please ask the candidates the following questions, and fill out their responses and fax them to 866-942-6222 OR fill out the form online at <http://save-georgias-coast.org/petitions/event-comment-form/>

Thank you for helping to Save Georgia's Coast!

Talking Points and Questions

1) Currently, there are not any qualified environmental scientists on the committees who oversee the government agencies in charge of enforcing our pollution and nature protection laws.

- What will YOU do to ensure that the Board of Natural Resources, the Coastal Marshland Protection Committee and the Shore Protection Committee have representation from the scientific community?

2) In 2008, a representative of the conservation community on the Board of Natural Resources was removed, yet business, development and industrial interests remained on the board.

- Do you believe that conservation interests should be represented on the Board of Natural Resources, the Coastal Marshlands Protection Committee and/or the Shore Protection Committee?

Response Form
